NCC is accessible to students with disabilities in accordance with Section 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act of 1990, as amended. Students with disabilities that have been diagnosed and documented by a qualified professional may be eligible for services, depending upon documentation provided by the student. The documentation should be recent (preferably no more than three years old), specifically name the diagnosed disability, identify diagnostic testing mechanisms and procedures, and relate the testing results to the effect of the disability on learning and functioning in an educational environment.
