1. Electrocardiogram Technician (EKG)	42	14	\$599	Additional
2. Customer Service for Health Care Professionals	12	4	\$149	N/A

*Tuition subject to change.

Electrocardiogram Technician

Students will gain a basic knowledge of the anatomy and physiology of the heart and an understanding of heart function. Students will learn proper patient information input into the EKG equipment and proper preparation and lead placement for obtaining an accurate and clear electrocardiogram. Students will learn about normal and abnormal EKG rhythms using analysis with hands-on practice during each session. A brief heart disease introduction will also be included. Patient preparation for telemetry monitoring, holter monitoring, and stress testing will also be covered.

There is an optional observation class at Norwalk Hospital. Students who elect to participate must provide proof of a medical examination within the past year. Health forms are available online (www.norwalk.edu >Academics >Continuing Education >Download Forms).

Upon successfully fulfilling the program requirements, students will receive a certificate of completion.

Entrance Requirements:

- A high school diploma or equivalent
- Proof of a medical physical examination within the past year in order to participate in clinicals. The medical form is available online (www.norwalk.edu, >Academics, >Continuing Education, >Download Forms, >Medical Form for Clinical).

Important Information:

- A white lab coat or scrubs may be required for some clinical sites.
- Students who elect to take the National Healthcareer Association (NHA) Certified EKG Technician (CET) certification exam are responsible for associated fees.

Co-requisite: Customer Service for Health Care Professionals

Customer Service for Health Care Professionals

This course is designed to teach health care professionals how to respond to unique medical setting challenges and achieve service excellence. Some areas covered are Patient Bill of Rights, professionalism, telephone etiquette, communication skills, working with a culturally diverse patient population, bedside manners, managing job stress and employment opportunity interview techniques.

Please refer to the current Continuing Education & Workforce Development catalog for course specifics (tuition, start date, class time slot and location).
